

PERSONAL BULLETIN NO. 8 - BSRA Hdqrs., San Diego 16, Calif. - April 25, 1957

POINT OF NO RETURN --

In its present application, made by the Probert Control Yada di Shi'ite, the phrase, Point Of No Return, means the predicament in which the human race has involved itself - socially, politically, and especially with reference to the manufacture and continued testing of nuclear weapons.

The Yada, be it said, also finds himself in somewhat of a predicament, as to what to say, and to whom and how; and especially if (as usual) his "news" and comments will awaken in many people a degree of apprehension, and consequently of resentment, and its release condemned as contrary to 'public policy'. But this situation is inevitable and no publicist can avoid it; I only want to say that this fine exornate intelligence known as the Yada or Head (of the once powerful Shi'ite clan) is known in some degree to millions of people throughout America and Europe, and that he is no alarmist, and no egotist, and claims no absolute and final knowledge. But he does speak from a viewpoint and knowledge of facts inaccessible to the average human in our earth life. Personally, I have listened to him and talked with him for hundreds of hours during the last ten years, and my respect for his knowledge and character is very great.

Evaluation and importance thus simmer down to a personal matter. Here is a highly informed 'entity' in whom I have much confidence, and I think what he says should be made accessible to you. I make the gesture-of-offering, but from there on it is your affair.

On the night of April 18, 1957, seven persons being present, Mark Probert in deep trance, I questioned the Yada in effect: "What is the direction of development of this situation? The Visitation of the aeroforms (UFO) continues in all parts of the world. This can hardly be casual, accidental, without plan or objective. What do these visitors want, or what events are impending...? After a little silence the Yada replies in substance:

"These questions must and will be asked with increasing insistence. I am not unreluctant to answer them, for reasons you can easily understand. Neither my silence nor my speech will be applauded, and either will be condemned. If I ask you NOT to make public what I say, what will be the use of saying anything? About this you will use your discretion.

"I GIVE YOU ONE YEAR. Unless your government, and the governments of other great Powers make an end of atomic and nuclear experiments, your world, your civilization will by that time reach what I call in your phrase THE POINT OF NO RETURN. The accumulation of deadly 'fall-out' substances in your atmosphere will be beyond control - and its effect beyond neutralization by any means in your possession at present. There will then be no road back, no way ahead except to reap the harvest of tares of your own sowing. . ."

(Question: Do you really believe, yourself, that any such voluntary agreement and change of policy can come about? At the moment it looks very much as if the Russians were deliberately attempting to kill a great number of Japanese by means of the atomic fall-out...)

(The Yada): "No, I see no present signs of such a voluntary agreement. As to the Russians --- they long ago made a systematic study of air currents and conditions, and their present operations are indeed directed to the purpose you mention. The

further purpose and upshot will be, to give Russia another weapon in the cold war - to say 'See what happened to the Japanese! This will happen to you also, unless you accept our hegemony.'

(Yada, con.): I think your visitors are observing, studying, WAITING. They wait to see just what earth people are going to do or try to do. The earth has suffered many great cataclysms and survived them. Whole races have come and gone. There have been giants, and also pigmies measured in inches. They have come and gone. Destruction by a nuclear war need not mean of the planet; the earth has its place in the economy of the solar system. It has relationship to the ether-worlds also. War with nuclear weapons may make the earth uninhabitable by humans - maybe not instantly so, but after a little while. The survivors would be the unfortunate ones. As to mutations - a mutation is not necessarily bad or horrible to look upon. Evolution proceeds by breaks, jumps, unexpected appearance of new forms. A mutant may be Nature's means of producing a superior or 'higher' form."

For a closely reasoned analysis of the whole world situation, I refer our Associates to CATAclysm HAS BEGUN, by J.J. Williamson, founder and president of The Society of Metaphysicians Ltd; Archers Court, Stonestile Lane, Hastings, Sussex, England. (\$1.00 net, 21 pgs, plus appendix in 11 sections; viz. (1) Additional Flood Data (2) Radioactive Dusts etc (3) Radioactive Snow (4) Evidence that Sunspots Cannot be Responsible for Weather Changes (5) French Concern (6) International Concern (7) 'Freak' Weather Reports (8) Evidence of Illness due to RA in Atmosphere (9) Evidence of Pollution of Seawater (10) Anti-Psychic influences (11) Miscellaneous Data. A 10-page summary of this booklet also appeared in ROUND ROBIN X-5, January-February 1955.

This is PERSONAL BULLETIN No. 8, sent without charge to Associates who have filed with us self-addressed return envelopes (stamped). If you sent us 10 envelopes you will now have 2 remaining in our file. This service was devised as a means of keeping up communication in case mail service and/or our publications are suspended. . . or in case of news of immediate interest outside our regular mailing dates. (M.L.)

"AND LET IT BE, WHEN THOU HEAREST
THE SOUND OF A GOING IN THE TOPS
OF THE MULBERRY TREES, THAT THEN
THOU SHALT BESTIR THYSELF."

Addendum:

Watch for display of what Trevor James calls "cosmic pyrotechnics" between the 25th inst. and end of the month ... The 2-part brochure, SPACEMEN FRIENDS AND FOES will shortly appear in book form; T.J. tells us it will contain new and important material, "includes a stirring account of an attack on an airplane with heat rays" - and 14 year record, known to the the A.F., of hostility on the part of the UFO. Also, this book gives a generous lift to the BSRA, altho T.J. is not formally an Associate and has formed his opinions independently of the BSR approach. Price of book not yet announced but we can put your name on a waiting list. or ask the New Age Pub. Co. to do so. Their address is 1542 Glendale Blvd, Los Angeles 26, Calif. (They are the publishers of Spacemen Friends & Foes, of which the new book is a sequel and much expanded; its exact title is not yet announced.
